05 Bluetooth Connection
English

1. Turn on the speaker
Press and hold the power button for 2 seconds to turn on the speaker with a prompt sound. And the blue LED light flashes indicating it is in the pairing mode.

2. Connect it to your device
Turn on the Bluetooth of your device and select R1. Once the connection is completed, it will beep and the blue LED light will stay on.

The speaker will connect to the last-connected device automatically once the device's Bluetooth is turned on.

06 TWS (True Wireless Stereo) Function
English

1. Set up the TWS system
Turn on two R1 speakers and make sure no device connect with either of them. Double press one speaker's ▷ button and there will be a beep sound to indicate pairing is taking place. Once pairing is complete, there will be another beep sound.

2. Pair two TWS speakers with a Bluetooth device
Select R1 in the Bluetooth settings menu of the Bluetooth device. There will be a sound indicating a successful connection and the LED indicator keeps on.

3. Stop the TWS
Double press either speaker's ▷ buttons to disconnect it with the other one.

Main Speaker

Dependent Speaker

Tips:
1.For the first time of setting up the TWS system, the speaker which you double press the ▷ button will work as the main speaker and the other one as the dependent speaker.
2.After the first connection, the main speaker will keep working as the main speaker and the dependent one will keep working as the dependent one in the future connection. And they will connect with each other automatically once they power on.
3. After setting up the TWS system, the dependent speaker's blue LED indicator stays on and operation.
4. The true wireless stereo function supports only 2 speakers.
5. After the TWS system is set up successfully, you just need to operate either speaker. The other one will do the same operation simultaneously.
