OPERATING INSTRUCTIONS

● WIRELESS BT MODE:

- Press MODE and select Bluetooth (Blue) mode for Bluetooth pairing.
- Once Bluetooth mode is selected, your music player will automatically enter pairing mode if not already paired to another device.
- Search for the model number MT600 on your Bluetooth menu on the smart device and select it.
- Once selected, the smart device and music player will connect. When connected you can control your music player through the top panel controls or the smart device.

● LINE IN MODE:

- Press MODE until AUX is selected.
- Make sure a 3.5mm AUX cable is plugged into your audio device from the AUX port on the top of music player.
- In AUX mode, you can only control the functions through the audio device; although, you can adjust the volume on either device.

● FM RADIO MODE

Press MODE until FM Radio is selected.

- Press the P/P (Play/Pause) button to auto scan FM Radio stations. All available stations will be stored automatically.
- Press the NEXT or PREVIOUS button to navigate through the saved radio stations.

● USB AND TF CARD MODE:

NOTE: Please make sure a USB Drive or TF Card is inserted in the USB/TF Card port located on the top of the music player.

- Press MODE until USB/TF Card is selected.
- You can use the control on the top of your music player to navigate through songs (tracks), play/pause, volume.
